MISSION STATEMENT

As we meander our way through the new normal and accepting that 2021 will no doubt present a different set of challenges we wanted to kick start a new year with a host of new products. Our focus is on assuring our customers and colleagues that innovation and evolution are still very much at the core of Addis.

2020 is a year we are certain most of us would like to forget. An unprecedented time and one that has impacted on us all one way or another. It created a time for us all to stop and reflect and in essence allowed every individual the chance to stop and take stock. To understand and appreciate our natural world, our local surroundings and to really appreciate the beauty on our doorsteps.

Based in Bridgend South Wales we are incredibly fortunate to live on the most stunning coastline. Barafundle Bay featured once again in our catalogue is on the spectacular Pembrokeshire Coast National Park. Great Britain boasts the best wildlife, flowers, rivers and nature. However, the plight of so many is under threat. For this reason we have developed a range in collaboration with British designer Lorna Syson. The focus is to help raise the awareness of the declining numbers in British wildlife.

Our main focus continues to be on hygiene, cleaning, organising and sustainability at home and away from home. We continue to make everything to the quality standards our customers demand and expect from the Addis brand. This will be bolstered with continued support across the addishome social channels and traditional consumer press ensuring high visibility of the brand.

Addis Made For Life

THE FEATURES EDIT

A selection of new products from Addis designed with the changing needs of our customers in mind.

Items to help create a recycling hub

Sustainability away from home

New sink side items

Adding the finishing touches to the bathroom

Colour coded cleaning system with Lynsey Queen of clean

Love your laundry

Design commission by
LORNA SYSON
Supporting and raising awareness for British wildlife

Design commission by Lorna Syson to raise the awareness of the British Countryside and wildlife.

A stunning collection of laundry items has been developed. The range is ready to launch and is subject to minimum order requirements.

Over 72,000 Hedgehog Champions have pledged to help hedgehogs in their local area.

With a population of fewer than 1 million, Hedgehogs are listed as a threatened species.

The use of pesticides has reduced their access to insect food and busy roads have caused mortality rates to rise.

Interesting Fact

Did you know an adult hedgehog has up to 7,000 spines on its body?

Interesting Fact

Male hedgehogs can travel up to 1-2 miles in a single night.

Interesting Fact

Puffins are highly susceptible to pollution and climate change

The estimated puffin population in Wales is 34,000. The last recorded figure in the UK is around 450,000 puffins.

The species is threatened with extinction, with a decline as much as 42% over the past five years.

Interesting Fact

Puffins can live for over 20 years.

ECO RANGE

Made in the UK

Made from 100% recycled household plastics.

Drawer organiser
